ADJOURNED SINE DIE.

Representatives of Miners Complete Deliberations at Hazleton.

SUSPENSION OF WORK ON ALL SIDES.

The Question of Calling Out Engineers, Firemen and Pump Runners Referred to Officers in Various Districts.

Hazleton, Pa., May 17.—The great coal strike which was inaugurated permanently by the action of the miners' convention is now in full swing.

There were no developments previous to reassembling of the convention in secret session. From the gossip of the delegates it is expected that the proposition to call out the mine engineers, firemen and pump runners, thus endangering the safety of the mines, will meet with as much opposition as did the motion to make the strike permanent.

Those who advocated the continued suspension of work as a rule are in favor of calling out these men. They argue the more mine owners are inconvenienced and harassed, the sooner they will weaken and grant the men some slight concessions. The more conservative mine workers fear that to call out the protectors of the mines would be a homerang that might prove extremely costly to the miners. It is argued by them that the United Mine Workers' organization has all along followed the policy of assisting the companies in protecting their property. One delegate said: "I am against calling out the engineers, firemen and pump runners, because I believe the union should protect property rather than stand by and see it go to destruction. If the convention decides to call out the men and the employers fail to fill their places, nearly every mine in the region would fill with water, which would mean tremendous loss to the owners. It would take months to pump out this water and in many cases the flooding of the workings would ruin them beyond all repair. Another danger would be the accumulation of gases. After the strike is over and the water had been pumped out the men would run a great risk in entering the mines."

If the convention decides to call out the engineers, firemen and pump runners, it is certain the order will be obeyed by all of this class of mine workers. The union officials say that most of them belong to the union, but this is denied by the firemen, who insist that their organization, which is a separate one from the United Mine Workers, is quite strong numerically. The firemen's union, which has somewhat complicated the situation by proposing to the mine workers that they will go out voluntarily if the latter will hack them up in the demands that they make upon the operators. The miners' officials have refused to commit themselves on this proposition and it will likely be fought out on the floor of the convention.

President Mitchell stated most emphatically that the report that a telegram from Senator Hanna was read in the convention before the vote was taken on the strike question is absolutely untrue. Mr. Mitchell also branded as false the statement that he has been visited by a representative of Senator Hanna with the proposition that the miners accept a 5 per cent increase in wages.

The convention adjourned sine die at noon. The convention decided to leave the matter of calling out the engineers, firemen and pump runners to the national and district officers.

Steps were taken by the convention to involve in the strike all the bituminous and anthracite coal miners in the United States. According to the rules of the union it requires five districts to call a national convention. The three anthracite districts will immediately get into correspondence with the bituminous districts with the hope of gaining the consent of two of them for the issuance of a call for a special national convention at which the question of involving all the bituminous miners in the United States in the present struggle will be discussed. The officials hope if this convention is called they will be able to bring out the non-union bituminous miners in West Virginia and central Pennsylvania.

After the adjournment President Mitchell issued a statement setting forth the action of the convention as above outlined.

Mr. Mitchell said that if a general strike did take place it would involve altogether 449,000 men who are employed in and about the coal mines of the United States.

Supply of Coal.

Hazleton, Pa., May 17.—It is estimated that the visible supply of an-

thracite coal belonging to all companies operating in the Lackawanna region and the large part of the Wyoming valley is less than half a million tons. The railway men are feeling the force of the strike and conferences of grievance boards of the Lackawanna system are in session here.

EMPEROR WILLIAM

Proffers Bronze Statue of Frederick the Great to United States.

Wiesbaden, Hesse-Nassau, May 17.—The German emperor telegraphed as follows to the president of the United States at Washington: "I am still under the deep impression created by the splendid and cordial reception of my brother, Prince Henry, by the citizens of the United States of America. In the speeches with which he was greeted the fact was often mentioned that my ancestor, Frederick the Great, maintained a friendly attitude towards the young American republic during the course of her formation, thereby laying the cornerstone of the friendly relations which have always existed between our two countries. The examples set to me by the great king I intend to follow. I intend to commemorate the visit of Prince Henry by a gift to the people of America, which I request you to accept in their name. I intend to present a statue in bronze of Frederick the Great to the United States to be erected in Washington on a place which you will kindly choose. May this gift be looked upon as a lasting sign of the intimate relations which have been successfully fostered and developed between our two great nations."

"WILLIAM, I. R."

President Roosevelt replied Thursday, May 15, thanking Emperor William heartily in the name of the United States and saying he would lay the matter before congress immediately.

No Whistles Blown.

Scranton, Pa., May 17.—The general strike of the mine workers was quietly entered upon in the Lackawanna valley, the thousands of workmen staying away from the mines with the same unanimity they manifested on Monday, when the suspension order was effective. There was no blowing of breaker whistles telling the men there was work for them and this being contrary to the rule followed up to this time it is accepted by many of the strikers to mean that the companies intend that the strike shall now become a lockout. Orders were given to remove all mules from the mines to the outside barns and pasture lands and until otherwise ordered the company hands allowed by the union to remain at work to protect property will bend every energy to the removal of articles which a flooding of the mines would destroy, should the strike order be extended to the firemen, engineers and pump runners. Only a few of the washery employees reported at the three Lackawanna washeries and a feeble effort was made to keep them going. These men claim they do not as yet understand what actual position they are to take in the strike and are awaiting the return from Hazleton District President Nichols and the executive board members of District No. 1.

Obects to the Garb.

New York, May 17.—Bishop Burgess of the Episcopal diocese of Long Island, has sent out a notice that the presence of women in the surplised choirs of the diocese is wasteful to him and he has ordered that the women singers in the nine missions attached to the Cathedral of the Incarnation, over which he has direct jurisdiction, be retired as soon as possible. "Women should not wear cassocks and surplises, which have belonged to men from the earliest times in the church," said the bishop. "I feel that woman should be modest at all times. I do not think it proper for her to don such raiment. I don't object to the women singing in the churches, but if a uniform is used it should be of a womanly character, and not a cassock and surplice."

One Blow Don't Count.

New York, May 17.—Justice Marcan of Brooklyn has declared that under the law a woman may strike her husband one on the head with a poker and not be adjudged guilty of treating him so cruelly as to warrant a decree of separation. The plaintiff in the case sued for a divorce but could establish proof of only one instance in which his wife beat him and the justice held this insufficient.

Chicago, May 17.—The American Ticket Brokers association closed its annual convention here. Ben Block of Chicago was elected president and W. B. Carter of Louisville was chosen as secretary and treasurer. F. L. Lindenberger of Detroit was re-elected chairman of the executive committee, and by action of the convention this carries with it the chairmanship of the committee on hostile legislation. The next annual convention will be held at St. Louis in May, 1903.

MISSION OF MR. AYME.

American Consul Will Search Ruins of St. Pierre For Archives.

SIX THOUSAND HUNGRY REFUGEES.

Commander McLean of Cruiser Cincinnati Officially Informs Navy Department of the Conditions at Fort De France.

St. Thomas, D. W. I., May 17.—The Danish cruiser Valkyrien has returned here from Martinique. A correspondent has had an interview with one of the Valkyrien's officers, who said: "We left St. Thomas the afternoon of May 9. The next day when 70 miles from Martinique the falling volcanic ashes became troublesome. We approached the island and discovered St. Pierre to be burning. We made signals to the shore, but no replies were received. We then lay off for the night and witnessed a remarkable spectacle of fire and lightning. Ashes fell, and detonations were heard. In the morning we saw the French cruiser Suchet, and went nearer the shore. The ashes became dense as we approached, and many dead bodies were floating on the sea. They were burned and swollen. As we approached St. Pierre we saw the town was covered with ashes. We then joined the cruiser Suchet and the cable repair ship Puyeur-Quartier and together went toward Laprecheur. The rain of ashes was heavy, and shrouded the Suchet. Soon the atmosphere cleared up and we ran close to Laprecheur and then to Hameau des Sabines. The boats from all three ships were put overboard, and the rescue of the people from the shore commenced at 11 o'clock in the morning. We were all covered with gray ashes and dirt big pans on board our ship were filled with cooked food and placed on deck; they were soon surrounded by a crowd of chattering natives. "The negroes were all saved by 4 o'clock in the afternoon, except a few who refused to leave the land. At this hour the Suchet signalled 'The operation is over; thank you.' The Suchet then steamed away in the direction of Fort de France. But our boats had not yet all returned to the ship. We were still waiting for the last one when there was a tremendous report from the crater of Mont Pelee, quickly followed by a second report. These explosions caused great excitement on shore and our last boat returned to us bringing the remainder of the negroes including those who had previously refused to leave. They had been frightened by the reports and jumping into the sea had swam out to the boat. "We saved 600 people from the north side where, on account of the wind, there were not so many ashes. We proceeded to Fort de France and landed there the people we had rescued, as well as some provisions. At the latter port a government official came on board the Valkyrien and thanked us for all that we had done."

Will Search For Dead Consul. Kingston, May 17.—Colonel Ayme, the United States consul at Guadeloupe, who is on board the United States cruiser Cincinnati, recently at St. Lucia, went to St. Pierre Friday in order to recover the archives of the United States consulate and to find, if possible, the bodies of the United States consul, Mr. Prentiss, Mrs. Prentiss and their two daughters, Marie and Christine. If he succeeds the remains will be taken to Port de France for burial, with special ceremonies and honors. The same party will also seek for the bodies of the British consul, Mr. Japp, and his wife and children. The Americans will further endeavor to recover the British consular archives. If the remains of the Japp family are found they will receive the same burial as the bodies of the Prentiss family. Advice received here from Port de France say that looting and robbery are on the increase at St. Pierre and elsewhere, and that the authorities cannot cope with the conditions, especially as local, political quarrels at St. Pierre are interfering with practical harmonious action. There are six thousand refugees at Fort de France and rioting is feared there.

Refugees in Distress. Washington, May 17.—Secretary Moody has received the following cablegram from Commander T. C. McLean of the Cincinnati: "St. Lucia, May 15. Six thousand refugees have come into Fort de France. Three thousands have come into Kingston from portions of Martinique and St. Vincent. Very many people perished; others suffering for food and water. Very great difficulty relieving and saving so many people scattered over

large areas. Number of people to be fed and cared for said to be reduced by mortality. Have coaled here. Return to Fort de France and St. Pierre today. If remains of officials are found will bury with military honors." Later the department received a cablegram announcing the arrival of the Cincinnati at Fort de France. A telegram also was received announcing that the collier Sterling, which took a quantity of stores from San Juan, Porto Rico, arrived at Fort de France.

CONFESSION OF FAITH.

Report of Special Committee to Presbyterian General Assembly.

New York, May 17.—The second day's session of the Presbyterian general assembly began in the Fifth Avenue Presbyterian church. The first half hour was taken up with devotional exercises and then the business program was begun, the new moderator, the Rev. Dr. Henry Vandyke, presiding. The morning session was consumed in the presenting of reports of special committees, among them being that of the special committee on the revision of the confession of faith.

Following is report of the committee on the revision of faith: "The report of the special committee on revision of the confession of faith covers two divisions, the work assigned to the committee having been so outlined by the general assembly. In the first place the committee says it was to prepare 'a brief statement of the reformed faith' to be submitted to this assembly 'for such disposition as may be judged to be wise.'"

The other part of the work was the preparation and submission to this assembly of certain revisions of the confession of faith in certain specified parts of it, and concerning certain specified subjects by the method of textual modification or, by declaratory statement or, additional statements undoubtedly with a view to their subsequent adoption by the Presbyteries and by the general assembly. Additional statements are commended concerning the love of good for all men, missions and holy spirit in the form of new chapters to be added to the confession. Also certain textual modifications.

John D. Witt signed the report, but stated that he thought it unwise to erect into a church doctrine our belief that all who die in infancy are saved. The report will not be debated until next Thursday or Friday.

WRECK ON 800 LINE.

Four Men Seriously Injured by Collision of Two Trains.

Rinelander, Wis., May 17.—A passenger train on the "Soo" line collided with a through freight near Pembine, demolishing both engines and injuring four men. Engineer Meager, the most seriously injured, probably will not recover. The other injured are the news agent and conductor of the passenger train and the engineer of the freight. The passenger train consisting of three cars, was thrown from the rails. The name of the other injured men have not been learned.

Will Pay Debts.

Columbus, O., May 17.—City Clerk Barr deposited with the county treasurer \$100,000 derived from the sale of bonds authorized to be issued to cancel deficiencies in the several funds of the city. A voucher for the amount was deposited with Director Cussins of the department of accounts. A part of the money will be used to pay the policemen and firemen for work performed the last half of last December. They will be paid what is due them for that time on Saturday. In addition to this a number of old bills will be paid which have accumulated from year to year when there was not sufficient funds with which to cancel the indebtedness of the city.

Sale Not Confirmed.

Copenhagen, Denmark, May 17.—The Folkething, lower house, by 9 to 2 votes, passed a resolution in favor of the cession of the Danish West Indies to the United States, on condition that a subsequent popular vote of the inhabitants of the islands show a majority in favor thereof. The matter was then returned to the Landsting, which, after a long and spirited debate, rejected the resolution, and, by 33 to 30 votes, reaffirmed the resolution providing for a limited plebiscite and the ratification of the treaty only if favored by a majority of three-quarters. This obstruction shelve the question.

New York, May 17.—Seven special scholarships have been established in teachers' college, Columbia university, for the assistance of southern teachers by George F. Peabody, V. E. Macey and John Crosby Brown of this city, who attended the recent educational conference in the south. No distinction of race or sex will be considered in making the awards. Any teacher in the southern states may become a candidate.

IN JAIL AT MONTREAL

Fugitives Gaynor and Green Remain In the Hands of the Officers.

TIME FOR HEARING EXTRADITION.

On the Morning Steamer Mrs. Gaynor and Her Attorneys and Detectives Arrive to Begin Habeas Corpus Proceedings.

Montreal, May 17.—The tug Spray, with Colonel Gaynor and Captain Green on board, arrived in Montreal at 8:10 a. m. The detectives proceeded to police headquarters with their prisoners who were brought before Judge Lafontaine, extradition commissioner at once. The detectives allow Colonel Gaynor and Captain Green to stay at the Windsor hotel until the court proceedings began.

Donald MacMarter, who represents the United States government, arrived at the Windsor and held a hurried consultation with Detective Carpenter and Marion Erwin, the Georgia district attorney. It was agreed that Detective Carpenter should keep in seclusion until the prisoners had been brought into court as he, being charged with execution of the warrants, would be the one upon whom the writ of habeas corpus would be served. No one has been allowed to speak to the prisoners thus far. At 7 a. m. the regular Quebec boat arrived, bringing the Quebec detectives and lawyers and Mrs. Gaynor who, when they saw that their chase on the river was fruitless, took the regular Montreal boat at Sorel. Several of the detectives, including Chief Detective Welch, came to the Windsor to see the prisoners were not spirited away again and others headed by High Constable Gale of Quebec, went in search of Chief Carpenter to serve the writ of habeas corpus upon him. The two prisoners talked but little about their arrest to their guards, but Colonel Gaynor said the trip was quite exciting, but it was pretty cold. Later while the Quebec high constable was looking for Chief Carpenter to serve him with writs of habeas corpus, the prisoners with a detective left the hotel ostensibly for a walk, but were taken to the residence of Judge Lafontaine, the extradition commissioner, who issued the warrants, and were there formally arraigned.

Detective Carpenter handed the judge the warrants with the return marked upon the back as is usual. The prisoners were asked if they were guilty or not guilty, and not replying the judge's clerk accepted their failure to plead as a plea of not guilty. Judge Lafontaine then said: "Prisoners, I remand you for trial until Monday, May 19, without bail."

The prisoners bowed and the judge informed Carpenter that he remanded the prisoners to his custody. The officers with the prisoners then returned to their hotel, where they will remain. After the action of Judge Lafontaine, Detective Carpenter permitted the Quebec officer to serve the habeas corpus papers on him.

Will Secure Their Release.

New York, May 17.—Counsel in this city for Colonel Gaynor and Captain Greene, who were arrested at Quebec and landed at Montreal after an exciting chase by their friends were in constant telephonic communication with Quebec and express the opinion that it will be a simple matter to secure the release of the prisoners on writ of habeas corpus. They state that their clients are now charged with embezzlement, which is extraditable. The charge hitherto has been conspiracy to embezzle, the latter is not an extraditable offense. To prove actual embezzlement it must be held that the accused had actual control of funds and no one, the attorneys declare, has ever held that Gaynor and Greene were the disbursing agents of the United States.

Willie Is Glad.

Chicago, May 16.—"I am glad that the officers succeeded in landing Gaynor and Green at Montreal," said Chief Willie, of the United States secret service. "Now that the contractors are in custody in Montreal, I feel confident that the extradition proceedings will result in their return to Savannah, Ga., for trial in the Captain Carter conspiracy case."

The tax on hides should be repealed as well as the tax on beef, says Philadelphia Record. The laboring man could carry his untaxed dinner pail with a freer gait if he should walk on untaxed shoe leather.

The United States, in spite of the shortage in corn and the cut in the prices of cotton, still stands at the head of exporting countries, as is shown by the figures of the Bureau of Statistics for the nine months ended March 31.

The meat packers have employed a professional press agent to do their talking through the newspapers. He'll try to make the people believe that the members of the trust are angels. The people ought to feel very grateful to the combine that they are allowed to eat any meat at all.

The Commercial Tribune, a Republican paper, says that Senator Aldrich has not spent one day in five in Washington this session, but has been attending to his business in New York. Oh well, what does it matter, anyhow? Senator Hanna is about the "whole show." What he says goes, no matter who is present.

OUT-WEYLERING WEYLER.
 "What would the sniffling hypocrites who are making such ado about abusing the army have said—what would the rest of the world have said—if Captain General Weyler had issued an order to his soldiers to kill all Cuban men and boys who were ten years old and over?" pertinently inquires the Lexington Democrat. "It is argued that 'severity' is necessary in the Philippines. That is exactly what Weyler declared about the condition of things in Cuba. Yet he never dared and there is no proof that he ever desired to go such lengths of cruelty and bloodshed as Gen. Smith, on his own admission, at the beginning of his trial by court-martial, went in giving orders for making Samar 'a howling wilderness.'"
 BEFORE the Senate Committee on the Philippines William J. Gibbs, of Springfield, Mass., testified that he had served in the Philippines in the island of Samar and was present at the massacre of Balanaga. He had not seen the water cure administered, but had witnessed preparations for giving it. Captain Connell, of his company, had given orders to the natives to clean up the town. They were reluctant to do it. The natives were forced to do the work under a soldier guard.

The witness said he escaped with his life at Balanaga because he and a few others grabbed guns and stood their ground. He said that the heads of his comrades were almost completely severed from the body and hung over on the table. The majority of the men were killed while eating. The attacking party ranged in ages from thirteen to forty-five years.

Describing the mutilation of the bodies by Filipinos after the attack, he said that the ribs of Lieutenant Bumpus were dug out, his face was hacked and smeared with jam, and toy flags were stuck into his eye sockets. Others of the dead had their fingers and different parts of their bodies chopped off.

All of which goes to prove the Democratic anti-American contention that the Filipinos belong to the highest type of Christianized man, and that American soldiers are ruthless barbarians and murderers.—Public Ledger.

Admitting the Filipinos have been guilty of these barbarous outrages, is that any excuse whatever for the American soldiers to lower themselves to the level of the savages and commit outrages that are almost as barbarous? Such outrages as our soldiers have been committing will not put a stop to the Filipinos' deviltry, but will only fire them to worse things.

New York's "Sky-blue Reformer," [Georgetown News-Democrat.]
 The Citizens' Union, an independent body of New York voters who helped elect the present Republican Mayor of New York City, has been keeping tab on the manner in which the sky-blue reformer is conducting city affairs. It charges that one of his department heads has permitted the theft of \$17,000 worth of paving blocks, and that in the civil service department examination lists are issued in advance of examinations and sold to favorites. Ben Butler once said: "Scratch the back of a reformer and you will find a scoundrel."

KING COTTON

French daintiness, Irish prettiness, Scotch sturdiness—rare beauty in all. Each contributes its own attractiveness to our collection of summer goods.
 FROM FRANCE—ORGANDIE NOUVEAUTE. Designs and colors while notably unobtrusive, are strong and individual, embracing only the most artistic styles. A peculiar wavy finish gives much body to this handsome fabric, while its unusual laundering qualities make it an assured favorite, 25c. yd.
 FROM IRELAND—DIMITIES. A fabric perennial in its attractiveness. It holds a foremost place that the most versatile demands of fashion cannot disturb. We invite attention to the graceful patterns and charming colors. They surpass all previous display. 15c. yard.
 FROM SCOTLAND—GINGHAMS. Such established favorites need little detail. Patterns embrace the latest and most taking designs, in which to respond to prevailing taste, stripes strongly predominate. 10c., 15c., 25c. yard.

Oxford Cloth. Its peculiar softness, coupled with exceptional durability, has given it great popularity for women's waists and suits, and men's and boy's negligee shirts. If it doesn't wear forever it comes as near it, as the American taste for change demands. 35c. yard.	M. D. Duck. This well known and popular duck is, as in the past, the commanding value in this fabric, which seems to be indispensable on account of its remarkable wearing qualities. The never ceasing demand for all staple effects in dots, stripes and solid colors will be fully met by our ample provision. 12½c. yard.	Mercerized Chambray. Chambray has always been a fabric of large consumption because of its admirable fitness for tub dresses for women and children, but the old-time goods bears no resemblance to its aristocratic sister, except in excellence of wear and color. The mercerized chambray has now reached such perfection it is really like silk. Plain and fancies. 25c. yard.

FISCAL COURT.

Proposition to Buy Springdale and Cabin Creek Pike Accepted.

Financial Reports Found Correct—Claims Allowed Friday and Other Business Transacted.

The Fiscal Court reconvened Friday with all Justices and the County Attorney present and Judge Newell presiding. The proposition of C. C. Degman for a settlement of his judgment against the Springdale and Cabin Creek pike and for the sale of said pike to the county was accepted. He is to receive \$981 in satisfaction of his judgment but as a part of said settlement, he is to complete the grading on Sycamore hill, estimated at 275 feet, and a fill on said hill of 330 feet, and to macadamize said grading and filling, the work to be done under the supervision of Turnpike Superintendent Luttrell. The proposition was accepted on condition that the tollgate be removed from said road by Monday, May 19.

The committee to whom were referred the various annual financial statements reported that the various amounts received by the County Treasurer in the different funds tallied exactly with the amounts due as shown by the settlement with the Sheriff. A voucher was found for each expenditure. The calculations in the Sheriff's settlement were also found correct, and the taxes received had been properly distributed among the funds in conformity to the court's orders. The different infirmity settlements were also found correct.

The Road Committee reported about ninety miles of dirt roads in the county, and they advised the expenditure of not exceeding \$1,200 out of the poll tax levy this year in the use of the grader on said roads where possible. The committee was authorized to make such expenditure.

A petition for building a turnpike through land of Alex. Mayhugh was referred to Supt. Luttrell to confer with Mr. Mayhugh and report to this court.

The Turnpike Superintendents and County Judge were authorized to borrow during the year as may be needed for turnpike purposes not exceeding \$20,000, at a rate not to exceed 4 per cent. The turnpike levy was pledged to secure said notes.

The County Treasurer was directed to transfer \$5,000 from the general fund to the free pike fund, the same to be paid back out of this year's free pike levy. L. W. Robertson was allowed \$50 for legal services in settlement and purchase of the Springdale and Cabin Creek pike. Squire Cochran qualified as Chairman of the Infirmary Board with Charles D. Pearce and John Duley sureties.

E. J. Slattery was allowed \$100 for burying paupers and attending to pest house. Squires Grant, Cochran and Perrine were appointed to confer with a committee from City Council relative to the improvement of Forest avenue and report.

The legal allowance was made to the officers of election and for room rent for elections.

The claims allowed were ordered listed with the Sheriff for payment.

Claims were allowed as follows:
 Ball, Mitchell & Co., coal for Dressel's office..... 3 00
 Bramel, John W., road work..... 4 00
 Crawford, Little, pauper supplies..... 9 00
 Worthington, Walter, pauper supplies..... 4 00
 Blattingly, Newman, road work..... 3 00
 Reeder, Geo., road work..... 2 00
 Williams, R. C., road work..... 16 00
 Walker, Geo. L., road work..... 8 00
 Ohio Valley Pulley Works, kindling..... 2 00
 Mackey, James, guarding inmates..... 18 24
 Mortou, John P. Co., books, stationery..... 31 35

Court adjourned till May 27th.

R-v. J. M. Evans has returned from Florida where he has been engaged in evangelistic work. He began at De Funkak Springs Dec. 8th and closed at Caryville May 12th; preached 325 times and made over 1,000 visits. There were 250 additions to the various churches. A house of worship was built at Florala, one assured at Chipley and steps taken to secure the organization of a church at Caryville where there is already a house of worship.

New York, May 17.—The retail coal dealers of this city advanced the price of anthracite coal \$1 a ton as a result of the order for a continuation of the miners' strike.

MRS. HELENA BLAU,

Young Milwaukee Society Woman.

THEN thousand cured women have written to tell how Wine of Cardui bestows the blessing of health on every woman who takes it, rich and poor alike. Mrs. Helena Blau, No. 123 Seventh Street, Milwaukee, Wis., is one of the young women whom Wine of Cardui has rescued from a life of suffering. She writes:

Mrs. Helena Blau.

"Wine of Cardui is certainly 'worn out' women's best friend and I am pleased to give my experience with it. A few months ago I caught a severe cold, having been out in inclement weather, which settled all over me, particularly in the abdomen. I was in almost constant pain. I consulted a physician and took his medicine for a month and without any relief. I then decided I would try your medicine and it was a lucky day for me when I did so. I noticed a change in a few days and felt encouraged to continue taking Wine of Cardui, and my patience was rewarded, for in two weeks my pains had left me and I felt like a new woman."

The woman who has suffered from female weakness should do anything within reason to secure health. Wine of Cardui is the medicine that appeals to reasonable women—women who hold operations and cutting in horror—women who know that Nature is the best physician. Wine of Cardui gives women back their health by giving Nature a chance to build up the wasted and diseased tissue. Wine of Cardui regulates the menstrual flow and Nature, when relieved of the drains or of the poisons in the system, makes the functional organs strong and healthy again.

Any woman who is silently suffering untold pains because she is too sensitive to undergo a physician's examination and treatment can find no excuse for not securing relief when Wine of Cardui is offered to her. There is no publicity to deter her. She can take Wine of Cardui in the privacy of her home, with as much assurance of a final cure as though a dozen doctors recommended it. Many physicians do recommend Wine of Cardui to their patients.

Why not get a \$1.00 bottle of Wine of Cardui from your druggist today?

WINE of CARDUI

A million suffering women have found relief in Wine of Cardui.

ANNOUNCEMENT.

FOR CONGRESS.
 We are authorized to announce JAMES N. KEHOE as a candidate for reelection as Representative from the Ninth district of Kentucky, subject to the action of the Democratic party.

President Jenkins to Preach Here To-morrow.
 President Burris A. Jenkins, of Kentucky University, will preach at the Christian Church, this city, to-morrow morning at 10:45 o'clock. The minister, Elder R. E. Moss, will preach at 7:30 p. m. Elder Jenkins stands among the leading men of his church and is the youngest college President in the United States. He is a forceful and eloquent speaker and the public are most cordially invited to hear him. He will preach at Mayslick Christian Church at night. The announcement of his coming ought to insure him large audiences at both his appointments.

GIRLS' HIGH SCHOOL.

Popils and Teacher Enjoyed a Delightful Outing Friday in Best's Grove.

The young ladies of the Girls' High School tendered their accomplished teacher, Miss Fannie Gordon, a delightful outing Friday in Mr. Thos. L. Best's beautiful grove on Fleming pike.

There were forty in the party, the trip out and back being made in wagons.

Croquet, ball and other games were indulged in, and at noon an elegant basket luncheon was served. The outing will ever linger with all present as one of the pleasant memories of their school days.

Miss Gordon is not only one of the most popular, but also one of the most successful teachers ever in charge of the Girls' High School.

Marriage of Mr. Lewis Martin at Covington Thursday—Couple Stole a March on Their Friends.

[Times-Star.]

That old age is not an armor against the darts of Cupid was well exemplified in the marriage Thursday of Mr. W. L. Martin, formerly of Maysville, but late of Covington, to Mrs. Tennessee Bridges of West Fourth street.

The groom has just turned sixty-three and is a widower with six children, while the bride is forty-seven, widow, and has four grown children, two of them married. They realized the fact that their families would bitterly oppose their marriage, so they quietly stole a march on them and repaired to the residence of Rev. Miller, where the ceremony was performed at 9 o'clock Thursday night.

They were right in the fact that the children opposed the match, as they are still lacking the conventional blessing.

REV. DR. MOLLOY.

Pastor of Central Presbyterian Church Receives High Compliment From Catlettsburg Press.

Speaking of the installation of Rev. Alfred Erickson as pastor of the Presbyterian Church at Normal, The Catlettsburg Press has the following:

"The sermon delivered by Rev. J. C. Molloy, D. D., of Maysville, on 'The Bible,' text taken from Psalm 119, was the most able discourse we had had the privilege of hearing in years.

"He is a man of very fine physique, strong, clear voice, has traveled extensively, is very brilliantly educated, and is a man of God, who has gifted him peculiarly in holding the attention of his audience, whom he simply thrills with his messages from the word of God.

"We are only sorry that every citizen of Catlettsburg did not hear this most eloquent defense of the Bible ever delivered in this vicinity."

CHANGE AT POSTOFFICE

In the Time of Delivery of Mail on Sundays—Hereafter Hours Will be 8:30 to 9:30 A. M. and 12 to 1 P. M.

Beginning to-morrow, May 18th, there will be some changes at the postoffice in the time of the delivery of mail through the general delivery and carriers' windows.

Hereafter on Sundays both windows will be open from 8:30 to 9:30 o'clock a. m. and from 12 to 1 o'clock p. m. instead of from 8 to 10 as heretofore. This is done to serve the public with the large western mail arriving at 10:10 a. m.

The Postoffice Department does not approve of work in offices during the usual hours of public worship, hence these windows will positively be closed between the hours of 9:30 and 12 o'clock a. m. on Sundays.

Stamps will be sold as usual during the hours for business.

There will be one Sunday collection from street letter boxes, between 11 a. m. and 1 p. m.

To put the brake on the wagon going down the hill is a help to the horse, when the wagon is heavily loaded. But what driver would think of applying the brake to a loaded wagon going up hill? If he did, his sensible horse would probably balk. Many a man is in the condition of pulling a load up hill with the brakes set against him. When his stomach is out of order, and the allied organs of digestion and nutrition impaired in their functions, a friction is set up which has to be overcome in addition to the performance of daily duties. A foul stomach makes a foggy brain, and the man with a disordered stomach has often to grope his way through the day's business like the man in a fog. He forgets appointments. Problems seem presented to his mind "wrong end to." This condition is entirely remedied by the use of Dr. Pierce's Golden Medical Discovery. It puts the stomach and digestion and nutrition system into a condition of perfect health, and gives a clear brain, a steady hand and a light step for the day's duties. When constipation clogs the channels of the body, Dr. Pierce's Pleasant Pellets will work an effectual cure of that disastrous disease.
